May 2018

Greetings, neighbors!

The Board is excited to test out a new pool season schedule this year! The extended schedule will give us more time to enjoy this premium amenity and use the brand new pool furniture we've purchased. I encourage you take advantage of the extended season (added weekends in May and September) - see details in this issue of the community newsletter.

If you're not connected to us on social media, check out our community website, 'like' our Facebook page, and watch for posts in the Nextdoor app. We work hard to ensure that helpful information is shared with everyone, so don't miss out!

We are looking for someone to organize the annual pool party and National Night Out celebration. If you are interested, please let our Community Manager Sam Drayden know, or reach out to any of the Board members. We need a group of volunteers in order to put on these events, so please consider stepping up to help. Remember the old saying: "Many hands make light work."

Have a safe start to the summer season - I hope to see you at a community meeting or event soon!

Susan Soto
2018 President, TBNCA Board of Directors

STAY HYDRATED THIS SUMMER

We're so excited for summer to get here! However, with the hot Texas summers comes higher risks of becoming dehydrated. Even mild dehydration can contribute to fatigue, difficulty concentrating, confusion and an impaired mood. Here are 4 tips from EverydayHealth.com to keep yourself and loved ones healthy and hydrated all summer!

- 1. Always carry a water bottle with you.** If you have a bottle within arms reach, it's very likely that you'll mindlessly sip from it throughout the day, without having to make a conscious effort.
- 2. When you're feeling frazzled or hazy, grab a glass of cold water.** Studies show that people instantly feel more alert after drinking H₂O.
- 3. Sip on a mug of herbal tea every evening.** You'll automatically add an extra cup of fluid to your tally every single day. On top of that, this relaxing ritual is a wonderful way to de-stress at the end of the day.
- 4. Eat a diet rich in whole foods.** By eating water-rich foods like vegetables, fruits, and yogurt, you'll automatically up your fluid intake.
